Self-assessment	I mastered the learning objective today.	I am almost there.	Need more practice and feedback.
Teacher feedback	You mastered the learning objective today.	You are almost there.	You need more practice and feedback.

1) In a football game, a team gained 8 yards on one play, lost 4 yards on the next play, and then lost 3 yards on each of the next two plays. Write an integer that represents the total number of yards gained or lost on the four plays.

2) Over the course of 4 hours, the temperature in Juneau, Alaska fluctuated immensely. The table below shows the change in temperature for each hour for the first three hours.

Hour	Temperature Change (in degrees F)
1	+3
2	-12
3	+5
4	?

If the temperature at the start was -9 degrees Fahrenheit and the ending temperature was -2 degrees Fahrenheit, how much did the temperature change during the fourth hour?

11 degrees increased

1) In a football game, a team gained 8 yards on one play, lost 4 yards on the next play, and then lost 3 yards on each of the next two plays. Write an integer that represents the total number of yards gained or lost on the four plays.

$$8 + (-4) - 3 - 3 = -2$$

$$\checkmark$$

$$4 - 3 = 1 - 3 = -2$$

2) Over the course of 4 hours, the temperature in Juneau, Alaska fluctuated immensely. The table below shows the change in temperature for each hour for the first three hours.

Hour	Temperature Change (in degrees F)
1	+3
2	-12
3	+5
4	? + 11

If the temperature at the start was -9 degrees Fahrenheit and the ending temperature was -2 degrees Fahrenheit, how much did the temperature change during the fourth hour?

$$-9 + 3 = -6 + (-12) = -18 + 5 = -13 + 11 = -2$$
